# The Visvero QlikView Advantage

With a relationship beginning in 2003, Visvero was among one of the first partners of QlikView Solutions in the United States. Since 2007, our QlikView trained consultants have worked diligently to implement over 70 deployments across the US, Europe and Asia. Due to the large base of QlikView specialists, Visvero offers the shortest lead time on delivering both QlikView resources and full solutions across the BI life cycle in a variety of industries, including pharmaceutical, manufacturing, government & public sector, retail, financial services and healthcare.
